

**2018 – Abo Academy University 100<sup>th</sup> anniversary (Finland)**

**2019 – SPCPA 100<sup>th</sup> anniversary**

**2020 – Turku University 100<sup>th</sup> anniversary (Finland)**

**VIII All-Russia Scientific Conference of Students and Postgraduates  
with International Participants**

**“YOUNG PHARMACY - POTENTIAL OF THE FUTURE”**

23-24 April 2018

VIII All-Russia Scientific Conference of students and postgraduates with international participants will be held from **April 23 to 24, 2018** in St. Petersburg Chemical-Pharmaceutical Academy of the Ministry of Health of Russia (14, Prof. Popov street, St. Petersburg).

*The Conference is one of the most significant events in the field of education and pedagogy supported by the Ministry of Health of Russia.*

**The Conference is accredited under "U.M.N.I.K" program and is held with the support of "ScanBalt Bio"- International Organization of the Baltic Sea Region Countries.**

**International Round Table dedicated to Abo Academy University (SPCPA Finnish partner) 100th anniversary will be organized within the frame of the Conference.**

**Round Table participants will include scientists from Finland, Germany, Republic of Srpska, USA**

Conference Scientific Agenda:

- Chemistry and technology of innovative medical substances synthesis;
- Innovative approaches in pharmaceutical biotechnology;
- Search for safe and effective plant and animal origin substances;
- Up-to-date dosage forms production technologies;
- Additive manufacturing in pharmacy;
- Modern approach to quality control of natural and synthetic origin medicinal products;
- Experimental (pilot) and clinical pharmacology, pharmacoconomics and health technologies assessment;
- Modern concept of drug provision and pharmaceutical production control within EEC countries;
- Pharmaceutical cosmeceutics, preventative and functional products and medical equipment;
- Medical products circulation staffing issues;
- Pharmaceutical ecology;
- Humanitarian issues of pharmaceutical science

The meeting between future experts and potential employers is the Conference main objective, as it helps effectively organize professional orientation of students and graduates on the annual basis, therefore increase domestic pharmaceutical industry competitiveness.

The Conference Agenda includes young PHARMA SLAM scientists contest. The participants will share their scientific achievements with the wide audience in the informal setting. The results can be presented in various ways (via presentation or a free speech). The participants will be assessed by the audience.
