

# Invitation Bioagora

BIO  
AGORA  
2018

by Biopeople

**The main theme is immuno•therapy, when Biopeople, together with partners and sponsors, invites you to attend the Bioagora 2018.**

The theme is reflected by the two keynote speakers Mai-Britt Zocca, CEO and founder of IO Biotech and Professor Inge Marie Svane, Center for Cancer Immune Therapy [CCIT].

Everyone (researchers, students, companies, patient organizations and other stakeholders) who is interested in health care research (not only immunotherapy) is most welcome to join the Bioagora, either as an exhibitor, displaying own science projects or results or as a guest with a wish to meet scientists, students and other stakeholders from academia or the industry.

## Would you like to apply for an exhibition booth?

[bioagora.dk/show/card/exhibit-at-the-bioagora-2018](http://bioagora.dk/show/card/exhibit-at-the-bioagora-2018)

## Would you like to register as a guest?

[bioagora.dk/show/card/visit-bioagora-2018](http://bioagora.dk/show/card/visit-bioagora-2018)

### Please note:
