

access to

# HEALTH INFRASTRUCTURES

for startups and SMEs

- ✓ Service to 300 SME's
- ✓ Tested Living Lab Self-Evaluation Toolbox
- ✓ Transnational Living Lab Concept
- ✓ Business plans for 14 partner Living Labs
- ✓ Service and/or product validated for 14 SMEs
- ✓ Promotion of Baltic Sea Region Living Lab services

#### The overall strategic aim

Baltic Sea Region as one test site for development of health care products and services

#### ProVaHealth aims to overcome the following challenges:

- Living Lab infrastructure serves only locally or regionally
- slow market uptake of innovations.

ProVaHealth facilitates access to health infrastructures for startups and SMEs aiming for commercialization with excellent client validation opportunities, hands-on feedback and input for product development.

It involves 14 health Living Labs from the Baltic Sea Region.
