BetterPrevention

with New Technologies and Participatory Approach

Welcome to join the final seminar of the **BaltCityPrevention** project!
The Seminar is organized as a side event of the WIS conference on **26 August 13:00 – 16:00 (12:00-15:00 CEST)** as a webinar.

The aim is to present the main results of this three-year Interreg project by introducing the new lifestyle intervention model. The key elements of the intervention model are the participation of the user group, co-creation process and eTools. The model and its key features are elaborated in the seminar through successful pilot case stories.

Inspiring keynote speech by **Nelli Säger**, CEO & Co-Founder, Fifth Corner Inc.
